Saratoga Rolling Hills Estate

27/10/2016 MAGAZINE INSIDE , NEWS PRINT THIS PAGE

Taken from: iInterni Magazine

Set on the hills of Cupertino, in the heart of **Silicon Valley** and the southern end of **San Francisco Bay** , the private residence **Saratoga Rolling Hills Estate** , with large windows that reflect the external environment, fits harmoniously into the landscape, becoming an integral, almost a natural extension, thanks to the choice of colors, shapes and materials and natural elements (glass, stone, wood, water, steel, fire) .

The architect **Louie Leu** has designed a house that develops in the form of L -looking **sculptural** : a modern house, luxury but a basic shape, as it combines detail **design** and more features **green** contemporary construction industry.

Among the special design, are worthy of note is the **outdoor kitchen** , the ' **home theater** , a modern **winery** , ample leisure areas on **multiple terraces** in which it develops the roof, a **swimming pool** infinity of over 25 meters, the fire pans from garden in Cor-Ten steel, Italians fixtures steel with wood cladding, an **elevator** with interior trim in **leather** and **armored door** entrance **Synua** of Oikos rocker large in **stoneware** effect **Cor-Ten rust** in 9 areas one in **steel full handle** horizontal.
