

The studio of LOUIE LEU ARCHITECT, Inc. was established in 1997 and specializes in comprehensive architectural services for upscale custom homes and commercial projects.

LOUIE LEU ARCHITECT, Inc. approaches design as an intelligent, creative response to each client's needs and budget, site constraints, the selection of materials, and the environment. The emphasis is always to provide a unique design that synthesizes function, form, aesthetics, space, and light.

Although the primary focus of the studio is on custom homes, its experience includes a wide range of project types including, single-family homes, multi-family housing, university housing, senior housing, civic buildings, office/commercial, educational facilities, and tenant improvements.

Louie Leu is the head of the studio and lead designer. With more than 25 years of experience, he has built his clientele from the strength of personal relationships developed through successful projects. His professional practice includes three years of experience in Florence, Italy, and work with distinguished international architects Bruno Gemignani and Aldo Andreoli of Italy and Ricardo Legorreta of Mexico. He is versed in feng shui principles and green building technologies. With a staff ranging from six to eight, the studio's intimate size allows Leu to provide personal attention on each project.
